

## My Memory Game

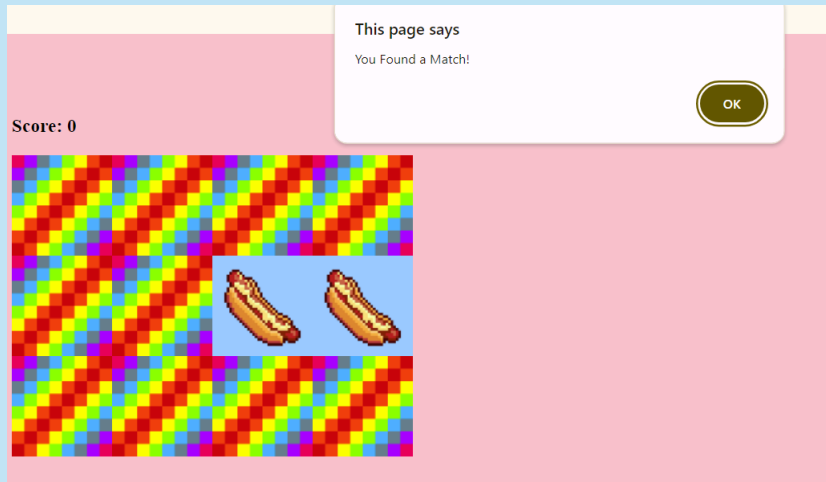

- When you start the game, you can see that all the cards are faced down
- Click on two cards that you think will match

- We see that the two cards I chose do not match, so a message appeared, “Sorry. Try Again”
- The cards get faced down

- We can see that the two cards I chose matched and a message appeared, stating “You Found a Match!”
- After a match, those two cards disappear and are not clickable anymore

- If you click on a card twice, a message appears stating, “You have picked the same image” and the cards face down again

## My Memory Game

Score: Congratulations, you found all the matches!

- Once all the cards are matched, a message appears at the top of the game, “Congratulations, you found all the matches!”
